

COVID-19 (Coronavirus) Outbreak Update: Telemedicine Webinar

March 15, 2020

Dear Colleagues:

There will be a more extensive update later today, but we did want to put word out about a telemedicine webinar being held today at 2:30 pm.

AHP is continuing to work on a telemedicine solution for practices, and the host of this webinar (Anytime Pediatrics) is one of those vendors with whom we are in discussion. The purpose of sharing this webinar is not to say that Anytime Pediatrics is the platform with which we will ultimately be working, but rather to give practices access to some educational content about how telemedicine is implemented and conducted in the primary care setting so you can all be better oriented to those considerations when we are ready to move forward with a telemedicine strategy.

The webinar will be held today at 2:30 pm, and you can sign into it here: <https://zoom.us/j/584427841> There is no participant ID necessary for participation.

We continue to partner with Dr. Mendoza and County Health Department officials on preparedness and response protocols and will convey information as it becomes available.

Thank you for your continued collaboration in this important public health endeavor.

All the best,

J. Chad Teeters, MD
Executive Medical Director, AHP
