Re: Imaging Volumes – Expanded Service

As Imaging Sciences begins to see an increased demand for services we plan to reestablish our hours of operations as well as reopen our satellite locations in order to accommodate our patients. As a result in addition to our current hours of operations the following adjustments will be made:

East River Road

- Reestablish weekend MRI hours as of Saturday May 30th, 2020
 - Open Saturday and Sunday 7a-7p
- Begin weekend CT hours as of Saturday June 14th, 2020
 - Open Saturday and Sunday 7a-5p
 -

UMI

- Reopen the MRI Magnet at 2180 South Clinton beginning the week of May 25th
 - Current hours of operation 8:00a – 4:00p
 - Will be extending to 8:00p in the near future
- Reestablish evening MR hours at the Bldg. D location @ Clinton Crossing
 - Current hours of operation 7:00a – 5:00p
 - Will extend to 7:00a to 9:00p as of June 8th, 2020

Penfield MRI

- Reopening Monday June 8th, 2020
 - Hours of operation 8:00a – 5:00p

The above efforts will assist in addressing our growing backlog as we ramp up services with the implemented safety guidelines our patients and staff expect, however if there are any questions or concerns regarding timely access to Imaging services please reach out to Tom Murray, Clinical Director – Imaging Sciences, or Connie White, Regional Administrator – Imaging Sciences for assistance.
