

## Arcadia Upgrade – Notable Changes

The purpose of this document is to inform users of the changes included in the newest version of Arcadia. This is not intended to be a complete training guide, but a high level view of the features that were either added or improved.

*Note: The address to access the site has not changed and can still be accessed at <https://ahp.arcadiaanalytics.com>*

### Must Read - Accessing the Upgraded Site

When accessing the upgraded site for the first time you will need to click on the ‘Forgot password?’ link. Click ‘Log In’ and then ‘Forgot your password?’ A reset password link will be sent to your email.

### Look & Feel

The obvious difference in this version of Arcadia is the look and feel. From the color changes, to smaller fonts which means less scrolling needed, and an overall modern interface. The functionality is the same as the previous version unless noted.

### Breadcrumbs

Users will now be able to see what filters were chosen when the filter is applied and the filter selection window closed. In previous versions it wasn't easy to see what filters were chosen after the filters were selected. The filter selections will now appear just below the menu bar.

## Patient Information

There is a substantial change in this part of Arcadia. Cards have been combined and improved making it easier to view patient information.

## Measure & Quality Gaps

This card combines the previous Measure, Condition, and Preventive cards. Selecting any one of the three links in the top right corner of the card will change the information within that card.

**Measure & Quality Gaps** [Measure](#) [Condition](#) [Preventive](#)

<b>Non Adherent</b>	<b>Adherent</b>
<b>Adult BMI Assessment</b> ACQA/IPP STANDARD	<b>Colorectal Cancer Screening</b> ACQA/IPP STANDARD
<b>Depression Screen/Follow-Up</b> ACQA/IPP STANDARD	
<b>Non-qualifying Measures</b> Patient does not qualify for 11 measures <a href="#">See all &gt;</a>	

Information displays the quality measures the patient is qualified for and their status toward satisfying those measures.

**Measure & Quality Gaps** [Measure](#) [Condition](#) [Preventive](#)

<b>BP · CVD</b>  Not documented	<b>Control Med · Asthma</b> Not documented
<b>Flu Vacc · Asthma</b>  on Nov 3, 2016	<b>LDL · CVD</b>  Not documented
<b>Rescue Med · Asthma</b> Not documented	<b>Tobacco Status · Asthma</b>  Not documented

Hovering over each entry will provide Source, Location, and Provider information.

**Measure & Quality Gaps** [Measure](#) [Condition](#) [Preventive](#)

<b>BMI</b>  Not documented	<b>BP</b>  Not documented
<b>Cervical Cancer Screen</b> PAP and HPV Result on Oct 4, 2017	<b>Colorectal Cancer Screen</b> FIT-DNA on Apr 17, 2019
<b>Depression Screen</b>  Not documented	<b>Flu Vacc</b>  on Nov 3, 2016
<b>LDL</b>  Not documented	<b>Mammogram</b> on Aug 29, 2018
<b>Med Rec</b>  Not documented	<b>Physical Exam</b> on Apr 16, 2019

Hovering over each entry will provide Source, Location, and Provider information.

## Demographics & Care Team

This card combines the previous Demographics card with Care Team including Care Manager and PCP attributions.

**Demographics & Care Team** Demographics Care Team

**Risk**

**Demographics & Care Team** Demographics Care Team

---

**Care Management**  
No care team members to display

**Providers**

PCP  
Provider Name  
Attribution: Clinical, Functional

## Utilization & Appointments

Combines the 'Utilization History' and 'Upcoming Appointments' cards into one list sorted chronologically.

**Utilization & Appointments**

---

**Appointment** Jul 13, 2020, 1:30 PM  
Provider and Location Information Shown Here

**Radiology** Jul 10, 2019  
Pain in left foot (M79.672)  
Provider and Location Information (Excellus Generated Claims | Insurer)

**PCP Visits** Jul 10, 2019  
Unspecified sprain of left foot, initial encounter (S93.602A)  
Provider and Location Information (Excellus Generated Claims | Insurer)

**DME** Jul 10, 2019  
Unspecified sprain of left foot, initial encounter (S93.602A)  
Provider and Location Information

## Pre-Visit Planning

Users are now able to create custom reports for Pre-Visit Planning. By selecting the star icon you can create a custom report allowing you to preserve the filters that were used to create the report.

The screenshot displays the 'Pre-Visit Planning' interface. At the top, there are tabs for 'Date (07/10/2020)' and 'Condition History (CMS-HCC)'. Below the tabs, the main heading is 'Pre-Visit Planning', followed by a share icon and a star icon. A red arrow points to the star icon. To the right of the heading, it says 'All Providers on 10.Jul.2020'. Below the heading, there is a table with columns: 'Appt. Time', 'Patient Information', 'Risk & Conditions Gaps', 'Quality & Compliance Gaps', 'Recent Utilization', and 'Recent Medication Fills'. The table is currently empty, and a message in the center reads: 'We couldn't find any data for you. Try expanding your search by changing the filters selected.'
