

Documenting Well-Child Visits with Previous Providers with MEDENT

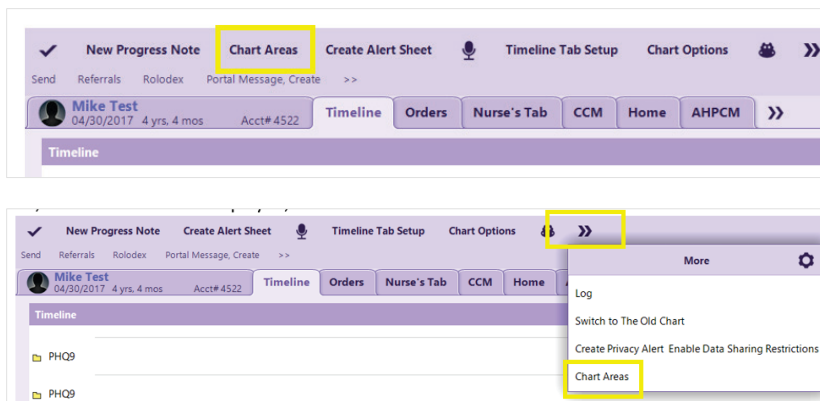

Overview

In cooperation with Accountable Health Partners, MEDENT has implemented a way to document well-child visits that have taken place with a previous provider. This will allow the practice to see a complete well-child visit history within the EMR knowing that the information will be sent to Arcadia to count toward well-child quality measures. This will alleviate the need to contact AHP for well-child quality measure exceptions.

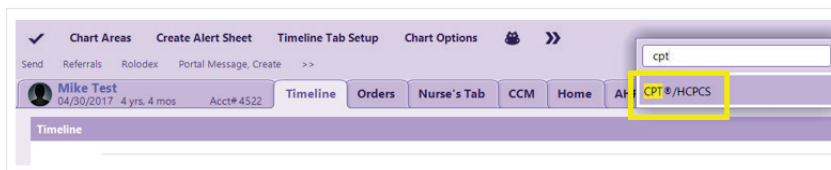

Note: Once the previous provider visits have been entered, the practice will need to run an historical manually or contact MEDENT support to request that a historical be processed that covers the date of the earliest well-child encounter entered.

Procedure

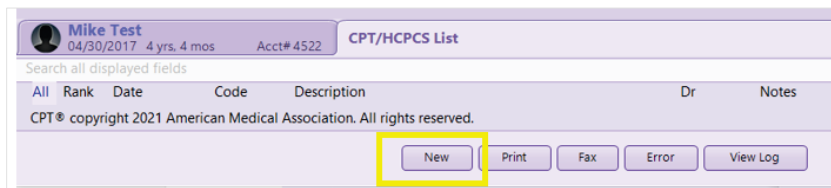

1. Within the patient's chart select 'Chart Areas' in one of these ways.

2. Start typing CPT to search and click on CPT/HCPCS

3. Click 'New'

4. Select the appropriate CPT code
