

# Spine Health Program 2.0

## with \$200 PCP training honorarium now available!

Simpler, Better, Easier Spine Care

90-minute FREE CME Course

Now fully online/on-demand

Earn \$200 sent directly to you from Excelsus BCBS upon course completion

Excelsus BlueCross BlueShield, joined by Spine Care Partners, LLC, is pleased to announce their updated and nationally recognized spine program. Updated clinical research, coupled with direct interactions with Stanford, UCSF, Duke, U Pittsburgh, among others, has aided in the creation of this now **fully online/on-demand** pathway workshop. Optional ongoing support is available through a 24/7 learning collaborative, which includes: workshops, new and improved toolboxes, clinical case review, research updates and interviews with spine thought leaders. The program focuses on early contact practitioners and engaging patients in a biopsychosocial, evidence-based, patient-active spine care pathway.

As part of this exciting Spine Health Program 2.0 rollout, participating Primary Care Providers in Family Medicine and Internal Medicine (MD, DO, NP, PA) are now eligible to receive a **\$200 Honorarium** following completion of the 90 minute (1.5 CME) self-paced online workshop.

### Here's what your colleagues are saying about the workshop:

#### SUMMARY PROVIDER SATISFACTION DATA FROM 110 PCP RESPONDENTS

Feedback from PCPs who have taken this workshop has been overwhelmingly positive, with ~96% reporting the workshop was a **'Good use of my time'** and was **'Impactful'**.

"Actually this was very interesting and the speaker was engaging. I haven't heard this kind of talk about back pain since I was a resident in the 90s, but this was even more evidence based. Pleasantly surprised."

"This was excellent. Very practical and provider-based. Not what I expected. I would totally do another CME like this."
